Service Rifle Competition

RETICLE SR-1

The Nightforce SR-1 reticle was designed for today's service rifle competition.

With both bold main lines and a fine crosshair at center, the SR-1 works well for both rapid and slow-fire strings.

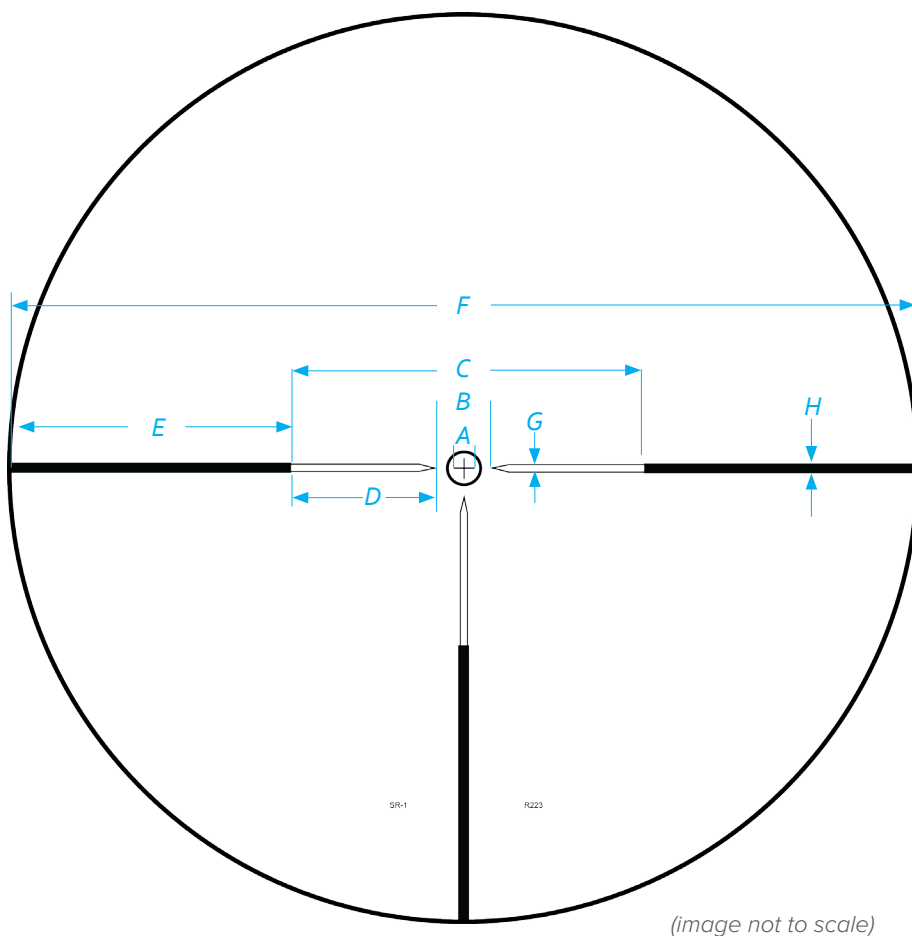

Target holds and small corrections with the reticle are easily done with the crosshair and circle center section. Hollow bars on the main lines at center help the shooter index without obscuring the target.

The SR-1 is available in the Competition™ SR Fixed 4.5x24 rifle scope.

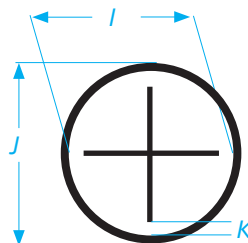

■ Available in Nightforce® Competition™ SR Fixed 4.5x24 rifle scope.

Reticle Subtensions

A	6 MOA
B	12 MOA
